BUILT FOR UPHILL BATTLES.

The Wildcat Sport XT and Wildcat Sport LTD are class-leading, two-seat performance machines that feature bump-swallowing double A-Arm front and swaybar-equipped rear suspensions with 13 inches of rock-scaling ground clearance. The rider and passenger positions are set a full 3-inches lower than competitive models to produce a low-center of gravity, leaving occupants less affected by vehicle movements while optimizing vehicle handling for what lies in front.
